

September 13, 2021

To: Waterford Township Trustees

The Planning Commission would like to recognize the ever changing environment of the Medical Marijuana Dispensaries and Distribution Centers within the State, County, and Waterford Township. In so doing, we would like to recommend expanding the current level of the two (2) Medical Dispensaries and encourage the allowance of Distribution Centers. It is the view of the Planning Commission that this action is in alliance with Waterford Township's Economic Development Plan. We would like to encourage that this recommendation is considered without delay.

Thank you,

Waterford Township Planning Commission
