Re: Fence Replacement at Fire Station One

---

Honorable Board,

The Fire Department is requesting for Township Board approval of the replacement of the existing privacy fence.

The fence has fallen into disrepair due to its age (over 20 years) and has been repaired by our personnel and F&O multiple times over the years. This fence is very important due to the Middle School sharing the property line and the fact that our apparatus drive daily around the building and train in the rear of the building weekly.

The school district has agreed to share the cost with the Fire Department. We would like to replace the existing wooden privacy fence with the same height PVC full vinyl privacy fence for ease of maintenance and longevity. The fire department would pay for 308ft of fence at \$16,334.00 (approx.) and the school district agreed to pay for 220ft at \$11,666 (approx.) after completion with a total cost of \$28,000.

We have been working with F&O and Supervisor Wall on this issue and have only received two quotes for this project over the last two years. It was agreed upon that Tippin Fence was the appropriate contractor to complete this work.

**Total cost for this project will be \$28,000** with a portion being shared by the School District

Respectfully Submitted,

Carl J. Wallace-Deputy Fire Chief
