RE; Next Generation 911 equipment and services contract with Motorola Solutions, Inc.

Dear Mr. Wall and Honorable Board of Trustees,

Next Generation 911, also known as NG911 in the public safety community, is the new framework for 911 call delivery. NG911 is an upgrade in our ability for people in distress to use modern technology and send data such as text messages and photos to help first responders more quickly locate people in need.

NG911 is a closed digital (IP-based) 911 network that is standards-based, scalable, secure, redundant, and built to meet the needs of public safety. Communications technology has advanced dramatically, with new ways of transmitting information, using mobile phones and other devices commonly carried by everyone from children to senior citizens.

Public safety needs to take advantage of data transmitted by these devices, including photos, videos, text messages, and web-based applications, to better respond to people in need.

As a public safety answering point (PSAP) and member of the Court-Law Enforcement Management Information System (CLEMIS) consortium, we are fortunate to take advantage of contract pricing that has been negotiated by Oakland County purchasing, for all members. The negotiated contract (attached), with Motorola Solutions, Inc., covers NG911 equipment, and services through January 31, 2026. Motorola Solutions is the sole provider of this equipment and services based on our participation in the CLEMIS consortium and the Oakland County public safety radio system. The attached contract has been reviewed by the Township's Attorney with no objections.

“to protect and to serve”

Based on the information set forth above, we respectfully request this honorable body approve this purchase and the attached contract with Motorola Solutions in the amount of \$81,442.68. Funds for this purchase are available in the Police restricted-use federal drug forfeiture account.

As always, please do not hesitate to contact me if you have any questions or need further information.

Sincerely,

Scott Underwood
Chief of Police
