Subject: FW: Marihuana Licenses

Good morning, per the below message, when will the next application window be open for marijuana licensing since the current window closes tomorrow?

Thanks,

Brittany Hone

TOWNSHIP RESPONSES

Question 1. When will the next application window be open for marihuana licensing since the current window closes tomorrow?

The Township amended its Medical Marihuana Facilities Licensing Ordinance in October of 2021 to add up to four (4) additional provisioning center licenses. November 17, 2021 is the deadline to submit applications for these additional provisioning center licenses. The Board has not established another date beyond November 17, 2021 to accept provisioning center license applications.

Applications may be provided at any time, for one processor license, two safety compliance facility licenses and two secure transporter licenses. The Board has not received a sufficient number of applications to consider for awarding these types of licenses.
