Who We Are

S.A.V.E.S Project is a non-profit initiative built on a simple powerful belief: everyone deserves to feel safe during moments of crisis or confusion.

- Designed to promote safety
- Improve accessibility for individuals with unique needs
- Promote inclusion for vulnerable persons

Our Services

S.A.V.E.S Project ID

Provides a way to identify non-speaking persons and those unable to remember critical details

Blue Envelope Program

Improves communication and reduces stress during traffic stops and vehicle related encounters for vulnerable persons

Community Education

Preparing the broader community for possible interactions with vulnerable persons through education and also various aspects of certain cognitive disabilities

First Responder Trainings

Our goal is to make sure first responders have the tools and information they need before an encounter so every situation is safer, calmer and more compassionate

What We Do

We work to build better communication between first responders and individuals living with cognitive or developmental challenges such as autism, dementia, or traumatic brain injuries. We are committed to creating an inclusive learning environment for everyone affected and to assist in directing you to the appropriate resources.
