Sewer Usage Rates:

(Adjusted 8-1-2023)

(Sewer Charges based off Water Meter Reading, or a Flat charge if Customer does not have Public Water):

<i>Rate Tiers:</i>	<i>Tier 1: (Minimum)</i>		<i>Tier 2: (Over Minimum):</i>
<u>Meter Size:</u>	<u>Ready to Serve:</u>	<u>Cubic Feet Allowed-Minimum:</u>	<u>Charge per 100 C.F. (Starting at 0 to 999,999 C.F.):</u>
All Sizes	\$75.40	N/A	\$4.12
Flat Sewer No Water	\$137.45	-----	-----

Flat Sewer is \$62.05 higher than water/sewer ready to serve because it is not metered, therefore 2nd rate tier does not apply, and a statistical average is uniformly used for this customer class.

* The Commercial Surcharges are set by the I.W.C. (Industrial Waste Control) Division of the G.L.W.A. (Great Lakes Water Authority). Waterford simply collects the Commercial Surcharge Fees and passes them on directly to the Great Lakes Water Authority. Waterford is obligated to charge all Commercial & Industrial Customers these flat quarterly fees because Waterford is part of the "Clinton-Oakland" sewer system, and relies on the G.L.W.A. for some of its Waste Water Treatment and disposal. Waterford does not retain or realize any revenue from these charges.

AMR = Automatic Meter Read. These units send their meter reads via radio signal to a fixed network collector. Meter prices are tied to metal prices.

Meter Fee for New Service includes the coupling/flanges needed to connect water meter to interior plumbing; new service is classified as new construction as well as adding an additional meter to an existing property ie Sprinkler/Irrigation meters.

Meter Testing Fees:
(Adjusted 3-9-2020)

When a customer disputes a meter's accuracy as outlined in Chapter 17 of the Township's Water/Sewer Ordinances, they may elect as part of the dispute resolution process to have the meter tested by a 3rd party. If the independent meter test results indicate that the meter is operating normally, the customer is responsible to pay for the meter testing fees. If the meter has a defect, the cost is paid by the DPW, and a new meter is installed.

Traditionally, the DPW passed along current testing rates that were established with testing vendors. The current fees are outlined below:

- 5/8" positive displacement meter bench test at the 3rd party facility \$40.00 each
 - 1" positive displacement meter bench test at the 3rd party facility \$73.00 each
 - 1 ½" positive displacement meter bench test at the 3rd party facility \$200.00 each
 - 2" positive displacement meter bench test at the 3rd party facility \$245.00 each
- ** All other meters per 3rd party pricing/quote. **
