**Subject:** Marihuana Facility License Application Inquiry

Hi Kim,

I am writing to you to submit an inquiry regarding the attached application form. The introduction states that no applications will be accepted for filing until Monday, January 4, 2021. Can you please confirm whether January 4, 2021 is the deadline to submit the application or whether it is the first day of the application period. In the event it is the first day of the application period, can you please advise when the last day to submit a completed application is.

Please let me know at your earliest convenience.

I look forward to hearing from you.

Regards,  
Christian

## **TOWNSHIP RESPONSES**

Monday, January 4, 2021, is the first day that Applications will be accepted for filing. It is not a deadline. The Ordinance does not have a date specific deadline for submitting Applications. However, under Ordinance Section 10-300(b), the Township Clerk's office will not accept an Application if it is for a type of facility license that is not available because the number of authorized licenses for that type of facility under Ordinance Section 10-298 have already been approved for issuance by the Township Board.
