## **TOWNSHIP CORRECTED RESPONSE**

Under the REGULATIONS FOR MEDICAL MARIHUANA USES, that are being added to the Zoning Ordinance as a new Section 2-604 effective January 4, 2021, a single medical marihuana primary caregiver's accessory use of a dwelling as an accessory use home occupation shall be reviewed under the Change of Use site plan review process in Section 4-004.1 of the Zoning Ordinance.

For up to six (6) medical marihuana primary caregivers to engage in the medical use of marihuana on a zoning lot in the M-1, Light Industrial, M-2, General Industrial, or Summit Place Overlay Districts after wellhead protection compliance requires major site plan review based on the criteria in Section 4-004.3 of the Zoning Ordinance.

Those medical marihuana primary caregiver uses do not require a Township License under the Medical Marihuana Facility Licensing Ordinance.

The Application for Site Plan Review under the Zoning Ordinance that is to be used to apply for a Change of Use or Major Site Plan approval may be found on the Developments Services Department web page for Community Planning and Development, Planning, Planning Commission, Site Plan Review and Site Plan Review Resources and by the following link:
