Subject: Medical Marijuana Ordinance

Hello,

I hope this email finds you well. I am writing to clarify about applications submitted on and after January 4, 2021. I understand that the applications were able to be submitted starting January 4, 2021, and complete applications will be considered at the next board meeting. However, my question is when is the last date that a complete application can be heard at the same board meeting with complete applications filed on January 4, 2021?

Thank you,

David Rudoi

TOWNSHIP RESPONSES

The stated understanding that complete applications will be considered at the next board meeting is not accurate under the license application review and processing procedure in Ordinance Section 10-302. Under that procedure, the date of the Township Board meeting at which administratively complete applications filed on January 4, 2021, will be considered is not known. There is no last date that an administratively complete application can be considered (heard) by the Township Board.
